

Claims

1. A processing or production plant, including pipework for transferring fluids from one part of the plant to another, wherein the pipework comprises at least 5 one substantially rigid pipe having at least one section with a centerline curving in three dimensions.
2. A plant as claimed in claim 1, including at least one processing unit, wherein the pipework leading to or from the processing unit comprises at least one 10 substantially rigid pipe, having at least one section with a centerline curving in three dimensions.
3. A plant as claimed in claim 1, comprising at least one vacuum source, wherein the pipework connecting the vacuum source to the remainder of the plant 15 comprises at least one substantially rigid pipe, having at least one section with a centerline curving in three dimensions.
4. A plant as claimed in claim 1, wherein the centerline of the pipe curves substantially continuously in three dimensions.

20

5. Pipework for use in a plant as claimed in claim 1.
